### **DETAILED ACTION**

A new restriction requirement is being made at this time as set forth below. The examiner regrets any inconvenience this may cause applicant.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8,11-22, drawn to a hopper assembly with a shutter.

Group II, claim(s) 9,23, drawn to a hopper with an information chip.

Group III, claim(s) 10,23, drawn to a hopper with a handle.

The inventions listed as Groups I/II/III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the Group I special technical feature is the use of a shutter on a hopper. The Group II special technical feature is the use of a chip on a hopper. The special technical feature of Group III is the use of a handle on a hopper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
